To make an appointment please contact Christine Chambers by
November 21, 2018 at (920) 788-7605.

It is never too early to start getting ready for school. Whether you feel your child is on-track or may need some help to get ready for school, a Child Development Screening can be a great first step in preparing for school.

Little Chute Area School District and Outagamie County Birth to 3 Early Intervention Program is pleased to invite all children, ages Birth-4, who reside within the Little Chute Area School District to participate in an Child Development Screening at Little Chute Elementary school.

At the Child Development Screening, your child will be screened in a relaxed and friendly setting in the areas of communication, gross motor, fine motor, problem solving, and personal social problems. Following the screening process an educational professional will send home a summary of results with parents and address any areas of concern. The entire screening process will be completed within 45 minutes.

The Child Development Day is free and optional.
