Life & Career Skills

As the Little Chute Area School District (LCASD) continues to improve teaching and learning for all students, we know that parents, guardians, and families are our most valuable partners.

Communicating student progress with families is critical to these partnerships. The LCASD is engaged in a process to continually refine the tools that we use to communicate with families about student learning.

Life and Career skills will be reported for each class or subject through the student information system in Infinite Campus via the parent portal.

Purpose of Life & Career Skills

In order to ensure that student's grades accurately reflect what they know from their course work, factors such as attendance, effort, and work habits have been removed from their academic grade and will be reported to parents as a Life and Career Skills score. This ensures that student grades reflect their mastery of academic content and not factors such as attendance, effort, and work habits that resulted in a student's grade for a course to either be over or under inflated.

Benefits of Life & Career Skills

Learning/Work habits play an important role in a student's success. In the LCASD we refer to those as Life and Career Skills. *Life and Career Skills* are an important factor in your student's preparation for college and career. Therefore, we believe that communication with you regarding your student's effort and behaviors is important.

PLEASE SEE RUBRICS

Grade 4K-4: Page 3

Grade 5-8: Pages 4-5

Grade 9-12: Pages 6-7

If you have further questions concerning the Life and Career Skills Standards, please contact your student's teacher or building principal.
