

Lifetouch Picture Ordering is done online through Lifetouch. Please do not send money and/or orders to the school with your child.

Picture day for students was during registration on August 22nd. Parents could have filled out an order form or go online using the code on the order form and placed an order. If ordered within 48 hours of picture day parents were not charged shipping and the photos will go directly to the school and be delivered to the individual child.

Within the next couple of weeks, Little Chute Elementary school will receive the printed photos and proofs for every child that already had their pictures taken on August 22nd. These will include a code that is specific to each child that parents can then use to order photos online for up to 11 months after picture day. When a parent orders photos at this time, they will have photos sent directly to their home, and there is a shipping fee involved.

For the students who were unable to make the picture day on August 22nd or need retakes done, we will be having Lifetouch come to the school on October 12th to take pictures. Again at this time, orders will be done online through Lifetouch.
